

Nursery funds school project.

Chris Campion, a second year 'A' level Product Design student from St. Ivo School took on a very ambitious project to build a castle and balancing beam play centre for Somersham based Silks Farm Nursery School. An important aspect of the design was to make the play centre fun whilst ensuring that the equipment was both suitable and safe for pre-school children. After almost a year since the project began, the play centre was presented to Silks Farm Nursery School at St. Ivo School earlier this week. This play centre represents one of the largest and most ambitious client projects undertaken by a St. Ivo School student.

Nigel Swaby, Director of Silks Farm Nursery School said, 'We are pleased to have had the opportunity of working with Chris at St. Ivo School and supporting him with his Product Design course. The play centre he created is superb and we are sure the children at the nursery will have many years of fun using it'.

Claire Morrison, Head of Design & Technology at St. Ivo School said 'Chris has had real experience of a design consultant by working on a live project in conjunction with the nursery. Thank you to the management of Silks Farm Nursery School for offering that support'.

General Information.

Silks Farm Nursery School is the leading nursery in the region. The nursery operates from purpose built premises set in 7 acres of private grounds and boasts two playgrounds, vegetable gardens and 3 acre Nature Park.
